PROFESSIONAL SUMMARY

Full-Stack MERN Developer with hands-on experience in designing and developing scalable web applications, RESTful APIs, and responsive user interfaces using React.js, Node.js, Express.js, and MongoDB. Demonstrated ability to improve application performance and user experience through optimized solutions. Adept at building end-to-end applications and collaborating in Agile teams to deliver efficient, production-ready software.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, Bootstrap, React.js

Backend: Node.js, Express.js

Databases: MongoDB, SQLite

Tools: Git, VS Code, Firebase, Docker, Linux, AWS (Basics)

Cloud & Services: Vercel, Render, Cloudinary, Clerk Auth, Gemini AI, CloudConvert, pdf-lib, CI/CD, SMTP

Concepts: REST APIs, Authentication (JWT), Responsive Design, Debugging, Performance Optimization

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern — Xyzon Innovations*Remote | January 2026 – May 2026*

- Developed multiple EdTech products end-to-end — a Certificate Generator, an AI-powered Pitch Deck Generator, an Admin Panel, and a Mentor Workflow — using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Built responsive React.js interfaces backed by scalable Node.js and Express.js services and RESTful APIs with MongoDB.
- Implemented authentication, third-party API integrations, and automated PDF generation to power core product features.
- Engineered role-based admin features and contributed across the full product lifecycle, from feature development through deployment.

MERN Stack Developer Intern — SendNow*Remote | July 2025 – September 2025*

- Resolved critical bugs in the analytics dashboard, improving application stability by 30% by debugging React components and optimizing API calls.
- Enhanced UI responsiveness across devices, reducing layout issues by 40% using Bootstrap and CSS.
- Developed a scalable file conversion utility, improving document processing efficiency by 25% using Node.js and Docker.
- Collaborated in an Agile development environment, contributing to feature development, testing, and deployment using Git.

PROJECTS

Nexus — B2B SaaS Project Management Platform

React.js, Redux, Node.js, Express, MongoDB

nexus-governance.vercel.app

- Built a full-stack MERN project management platform featuring team workspaces, role-based access control (RBAC), and real-time project tracking.
- Developed a responsive landing page with dynamic pricing tiers, comparison tables, and animated testimonial sections.

ElitePath — Full-Stack Job Portal

React.js, Node.js, MongoDB, Clerk, Socket.io, Gemini AI

mern-job-portal-plum.vercel.app

- Developed an end-to-end recruitment platform with role-based authentication, live job listings via the Adzuna API, and Cloudinary-based resume storage.
- Integrated Gemini AI for resume analysis and Socket.io for real-time notifications across the hiring workflow.

LabLink — Secure Collaboration Platform

React.js, Node.js, Express, MongoDB

lablink.live

- Built a scalable MERN-based collaboration platform enabling anonymous real-time file sharing for 100+ users.
- Developed RESTful APIs using Node.js and Express to handle real-time communication and data flow.
- Implemented ephemeral data deletion to enhance privacy and security using MongoDB.

EDUCATION

B.Tech in Information Technology — Mohammad Sathak Engineering College | 2022 – 2026 | CGPA: 8.6 / 10

HSC — Government Girls Higher Secondary School | 2021 – 2022 | 76%

SSLC — Government Girls Higher Secondary School | 2019 – 2020 | 74%
